### CID Hits Jackpot at Appreciation Program

The November 18th Appreciation Program was an evening of fun, excitement and good food.

The event was catered by Milton's Spicy Gourmet. The sumptuous menu included a toss salad, Mississippi Sweet Potatoes, Barbecue Chicken, and Green Beans Almondine & Rice Pilaf with Cranberries/Pine Nuts. A Special Thank You to the behind the scenes set-up crew, Bernice & Alexander Wright, Antoine Johnson Sr.,

Paula Hoover & Gail Ingram, Diane Ward & Sharon Stewart.

We also dined on heavenly desserts prepared by our talented team members.

Cid was the big winner of the evening. She won a prize for being the first person to complete the puzzle. She also won the \$50.00 cash door prize for her dream goals presentation.

Congratulations Cid – You are a Super Star. ■

## Problems Sleeping

By Alfonso Torres

I have been having problems sleeping. Have you?

I am experiencing the same type of sleepless nights that I was having after finding out that I was going to be a father for the very first time about 9 years ago.

My mind has been too restless to sleep. Who has time to sleep anyways? I am calculating all the possibilities, researching all the strategies, sketching out detailed plans, laying out the ground work for success.

Sometimes it feels like there is no end to the prep-work. But of course there is an end.

There has got to be an end to the prep-work... because the prize is on the other side. And, I am almost there. I can see it now. It is practically out... the birth of my FDI Success System.

It won't be perfect. But then again, it doesn't have to be perfect. What it does have to be is 'IN PLACE'.

I truly believe that there has got to be a system to follow. I do not want to leave my success in the hands of lady luck or dependent on my skills alone. Neither of those offers me good enough odds.

*"My mind has been too restless to sleep."*

I am not looking to roll the dice for a 1 in 6 chance. I want the flip of the coin with heads on both sides bet. And, the only way to get those odds is to have something guiding us along our journey. This plan needs to have a clearly defined purpose, full of checklists and milestones.

*"We need a business plan if we want to be successful."*

A little too melodramatic, I know. But boy, I am feeling the passion about FDI right now.

I see this amazing potential for the company and for anyone that gets serious about this **BUSINESS** opportunity. In case you didn't notice it bolded, the key word there is '**Business**'.

And, as all of you business owners know, being a part of an opportunity is not enough. We need a business plan if we want to be successful. Otherwise, life offers too many distractions that can take us off course.

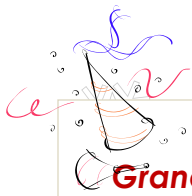

Anyways, I wanted to share with you where I am right now with this wonderful business opportunity. I am busy creating a system that is simple and easy to duplicate for maximum results.

I look forward to meeting you all in a regional rally to come and hearing about your triumphs.

*Remember: "The difference between 'try' and 'triumph' is a little 'umph'." ■*

To Your Success,

Alfonso Torres
